kuzakhmetovmarat@gmail.com | in/marat-kuzakhmetov | 015736524376
Based in Frankurt am Main, willing to relocate within Germany
Work permit in Germany

Frontend Engineer with 5+ years of experience in building high-performance web applications, including 1 year leading a team of 3 engineers. Proficient in **JavaScript**, **TypeScript**, **React.js**, and **Next.js**. Experienced in optimizing deployment processes and enhancing UI development workflows. Designed and implemented micro frontend architectures to scale complex systems.

EXPERIENCE

Frontend Engineer Berlin
NDA – Leading online media, MAU > 50M November 2022 - Present

- Developed and integrated new payment options for the Donation Platform, resulting in a 35% increase in user payments.
- Created a typo reporting tool, reducing editors' time spent fixing errors by 65%.
- Developed a standalone front-end email-builder that replaced the legacy CMS tool, reducing campaign creation time.
- Led a team of 3+ developers to launch the company's online store with an integrated CMS, driving +14% annual revenue and accelerating content updates by 85%.
- Built the front-end for a fundraising platform that raised €250K in the first two weeks and generates €20K monthly.

Frontend Engineer Moscow
Isite – Web development services May 2020 - July 2022

- Delivered responsive web interfaces using React and TypeScript, increasing mobile engagement.
- Implemented TypeScript, unit tests, and E2E tests across the codebase, reducing returned tickets and bugs by 15%.
- Diagnosed and resolved performance issues through code splitting, lazy loading, and asset optimization, reducing load times.
- Refactored legacy components into reusable modules, reducing feature development time and codebase size.
